

FGN 47 NEUROSPORA BIBLIOGRAPHY

This bibliography represents my attempt to collect all works dealing substantially with *Neurospora*. Please let me know of anything published in 1999 or 2000 that is not included here, so that it might be mentioned in the next bibliography. I would be especially happy to hear of chapters from books, and articles from journals not indexed in major bibliographic services. Please also let me know of any errors in citation. Please send reprints or copies of articles to the Fungal Genetics Stock Center.
