The *Journal of International Agricultural and Extension Education (JIAEE)* is the official refereed publication of the Association for International Agricultural and Extension Education (AIAEE). The purpose of the *JIAEE* is to enhance the research and knowledge base of agricultural and extension education from an international perspective. Acceptance rates for the past five volumes are: Volume 21 = 13%. Volume 22 = 18%. Volume 23 = 12%. Volume 24 = 18%. Volume 25 = 9%. Volume 26 = 26%. Volume 27 = 17%. Volume 28 = 22%. Volume 29 = 18%.

Articles intended for publication should focus on international agricultural education and/or international extension education. Articles should relate to current or emerging issues, cite appropriate literature, and develop implications for international agricultural and extension education. **Manuscripts, or portions of manuscripts, must not have been published or be under consideration for publication by another journal.**

For publication in the *JIAEE*, manuscripts must pass the ***JIAEE's double blind, referee process***, where peer reviewers evaluate manuscript content and ensure readability. Reviewers are selected from the AIAEE membership. In the double blind, referee process, all references to authors are removed before the manuscript is sent to reviewers. Articles may be submitted for peer review a total of **three times** before they are no longer acceptable for publication in the *JIAEE*. Failure to meet the submission formatting guidelines will result in an automatic first rejection.

Two different types of articles are solicited for the *JIAEE*: Feature Articles and Research Notes.

Feature Article

A Feature Article should focus on philosophy, current or emerging issues, and the methodology and practical application of specific research and appropriate technologies, which have implications for developed and developing countries. Conceptual/Theoretical and Methodological manuscripts are also encouraged as submission for feature articles. If applicable, a feature article should report the findings from a fully investigated study. Feature articles are **no longer than 20 double-spaced pages, excluding references.**

Research Note

A Research Note is a concise but complete description of a limited investigation that will not be included in a later manuscript. It serves one of the following purposes: (1) presents initial proof-of-concept results on new ideas or program evaluations, timely issues, or innovative approaches; (2) reports replications or extensions of previously published research that does not merit another full-length manuscript yet provides results that contribute to a greater understanding of the phenomena under study. Research Notes are **no longer than 10 double-spaced pages, excluding references.**

From the Editor

This week, I was able to participate in my favorite meeting of the year as I attended the AIAEE conference at the University of Guelph in Ontario, Canada. This annual meeting of international extension professions brings together faculty, graduate students and professionals from around the globe to discuss research, techniques and practices that contribute to the improvement of the agricultural industry. It is a collection of talented and dedicated people who are passionate about making the world a better place and they are some of the best people I know.

I was amazed as I participated in the executive committee meetings with the volunteers who organized and managed the many moving parts of the annual meeting. They have spent many months making this meeting valuable for all who attended and it went off without a hitch. I greatly appreciate the time and effort of each of the association leaders and I am already looking forward to meeting next year in Florida.

If you are submitting and/or reviewing for the journal, would also invite you to attend our annual meeting next year, but be warned... it can be addictive, in a good way.

Sincerely,

A handwritten signature in blue ink that reads "Michel Todd Brashears". The signature is written in a cursive, flowing style.

M. Todd Brashears, Professor
Executive Editor, *Journal of International Agricultural and Extension Education*
